

Cymedrig 2018-2023

Mae'r tablau isod yn dangos cyfartaledd cymedrig y 10 rhywogaeth adar uchaf a gofnodwyd ym mlynnyddoedd blaenorol Gwyllo Adar yr Ysgol, un gyda degolion i gefnogi gwahaniaethau. Gallwch lawrlwytho taflenni sydd wedi'u hanelu at wahanol grwpiau oedran gyda data mwy syml a mwy datblygedig yn rspb.org.uk/schoolswatch

- Sut mae'r hyn welsoch chi fel dosbarth yn cymharu?
- Beth am ofyn i'ch dosbarth wneud graff i ddangos y duedd gydag un neu ddwy rywogaeth?
- Ym mha flwyddyn y gwelodd dosbarthiadau y nifer fwyaf o biod?
- Ym mha flwyddyn y gwelodd dosbarthiadau y nifer lleiaf o ddrudwennod?
- Ym mha flwyddyn y gwelodd dosbarthiadau cyfartaledd o saith aderyn y to?
- Pam fod yna ddegolion? Sut allwch chi gael 7.7 o ysguthanod?

2018-2023 means

The tables below show the mean average of the top 10 bird species recorded in previous years of Big Schools' Birdwatch, one with decimals to support differentiation. You can download sheets aimed at different age groups with more simple and more advanced data from rspb.org.uk/schoolswatch

- How do your class's sightings compare?
- How about asking your class to make a graph to show the trend of one or two species?
- Which year did classes report the highest number of magpies?
- Which year did classes report the lowest number of starlings?
- Which year did classes see an average of seven house sparrows?
- Why are there decimals? How can there be 7.7 woodpigeons?
