

## **Session Outline**

## Wales KS2 Discovering Birds

National Curriculum links: Communication; Search for, access and select relevant scientific information, from a range of sources. Interdependence of Organisms; Identification, nutrition, life cycles, place in environments, Study the environmental factors that affect what grows and lives in those environments

| Learning objectives                         | Session structure   | Assessment for learning                     |
|---|---|---|
| Investigate, explore and identify the       | Introduction  | We will use games and activities to         |
| different animals in a habitat.             | Discuss what the children already know about birds and the different types  | encourage children to reflect on their      |
| Lower KS2                                   | of habitats they live in.   | learning and enjoyment of the day.          |
| Recognise that living things can be grouped | Session activities  |   |
| in a variety of ways.                       | Children will go on a nature discovery walk to discover which birds are out | Children will be given the opportunity to   |
| Create food chains using the creatures they | and about on the reserve. They may spend time in a hide identifying and     | give feedback in a variety of ways.         |
| have found.                                 | recording the birds they see.   |   |
| Upper KS2                                   | They will find out what's special about the birds they find, how birds      |   |
| Classify a range of creatures and the       | communicate and learn how a bird's adaptations help it to survive.          |   |
| reason they belong to a particular group.   | They will investigate what types of food birds eat and construct a simple   |   |
| Identify how animals are adapted to suit    | food chain around a bird.   |   |
| their environment in different ways.        | Plenary activity  |   |
| their environment in different ways.        | We will provide opportunities for children to reflect on and review their   |   |
|   | learning throughout the session using a combination of questioning          |   |
|   | techniques, physical activities, games and facilitated discussions.         |   |
|   |   |   |
|   |   |   |
|   |   |   |
|   |   |   |
| Before your visit                           | After your visit  | Key vocabulary                              |
| •   | Make some bird feeders to place around your school grounds.                 | ,   |
| Use the PowerPoint presentation on the      |   | Classification, keys, food chain, food web, |
| website to introduce the visit with your    | Place some bird baths or create a pond in your school grounds and watch     | herbivore, carnivore, omnivore,             |
| class.                                      | the birds drinking, feeding and washing!                                    | producers, consumers, predator, life        |
|   |   | cycle, camouflage                           |
| Introduce food chains and how energy        | Take part in the RSPB's Big Schools Bird Watch or Wild Challenge.           |   |
| flows through them.                         | www.rspb.org.uk/schoolswatch  |   |
