Access Statement for Ynys-hir RSPB Reserve

Introduction

The reserve is situated on the south side of the Dyfi estuary in mid-Wales. It's varied habitats include woodland, lowland wet grassland, salt-marshes and freshwater pools. The views are spectacular with some gentle level walks though most of the reserve is rugged. Spring brings summer migrants like redstart and pied flycatcher with many geese and ducks in winter. The visitor centre is at the top of a medium slope with a handrail with toilets below the car-park (disabled porta loo at top of steps)

We look forward to welcoming you. If you have any queries or require any assistance, please phone 01654 700222 or email ynys-hir@rspb.org.uk.
